

# Dangerous Download Part 1

ISTE Standards  
Digital Citizen 1.2b

CASEL Competency:  
Responsible Decision-Making

## WHAT ARE POP UPS? WHAT HAPPENS IF YOU CLICK ON THEM?

Faux Paw learns that downloading is a great way to get information . . . if it's done the right way. But she also learns the hard way that illegal downloading hurts everyone, including herself!

**TIP:** Ask for help from an adult as you work on this worksheet!

### Words to Know:

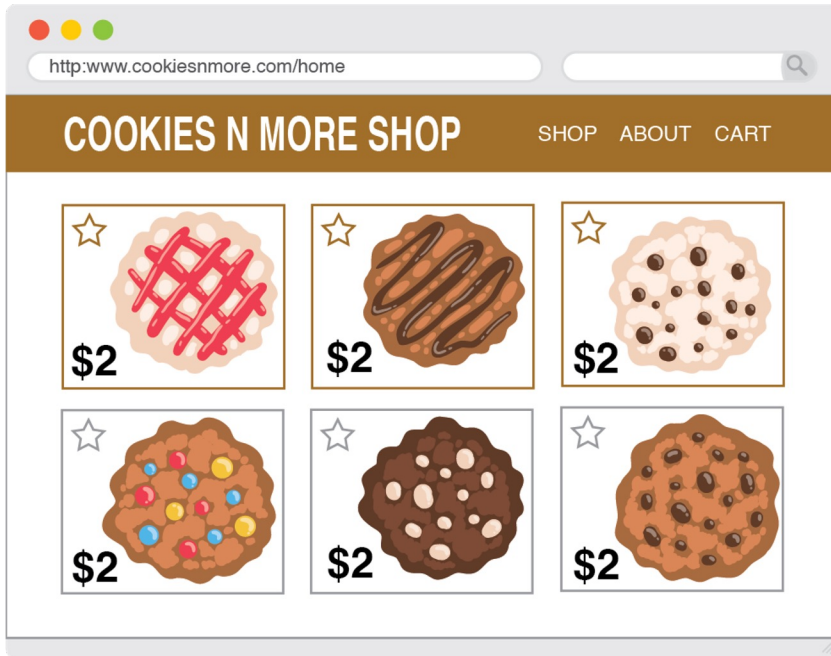

- **Common Sense** - the sense that someone or something isn't safe. For example, if something isn't free in a store, it shouldn't be free online.
- **Internet Stranger** - someone who you meet on the Internet but you do not know in real life.
- **Popups** - a screen that "pops up" on your computer when on the Internet that asks you to click on it. Clicking can take you away from the place you were and to another place that is not safe.
- **Trusted adult** - a person who is very close to you who knows what websites are safe, like a parent or teacher.

### Think About:

- Why does Common Sense give Faux Paw a warning that if something is too good to be true, it probably is?
- Think of some reasons people may try to trick you on the internet.
- Talk with a trusted adult about why you should be careful about what sources you trust online. Ask any questions you may have.

### Activities:

1. Look at the examples on the next page.
2. Have a conversation with an adult about what sources you can trust.
3. Talk about offers that are too good to be true and that you shouldn't trust.

Is this REAL or FAKE?
